Getting started

- 1 Select the **Add resource** button to add the tokens that have been issued to you.
- 2 When the resource key for *Slate* has been added, select the **Stepping Stones** button from the **My links** area to access *Slate* and all the associated channels.
- 3 Select your class to access your class page. On your class page, you can create assignments, check completed assignments, and access the grade book.
- 4 When you have added a resource using the resource key, you will see it populate here.

Adding resources

Select the **Add resource** button from the top of the screen.

Copy and paste the token/resource key that was given to you by your district or school administrator.

Redeem a token ✕

ADD RESOURCE

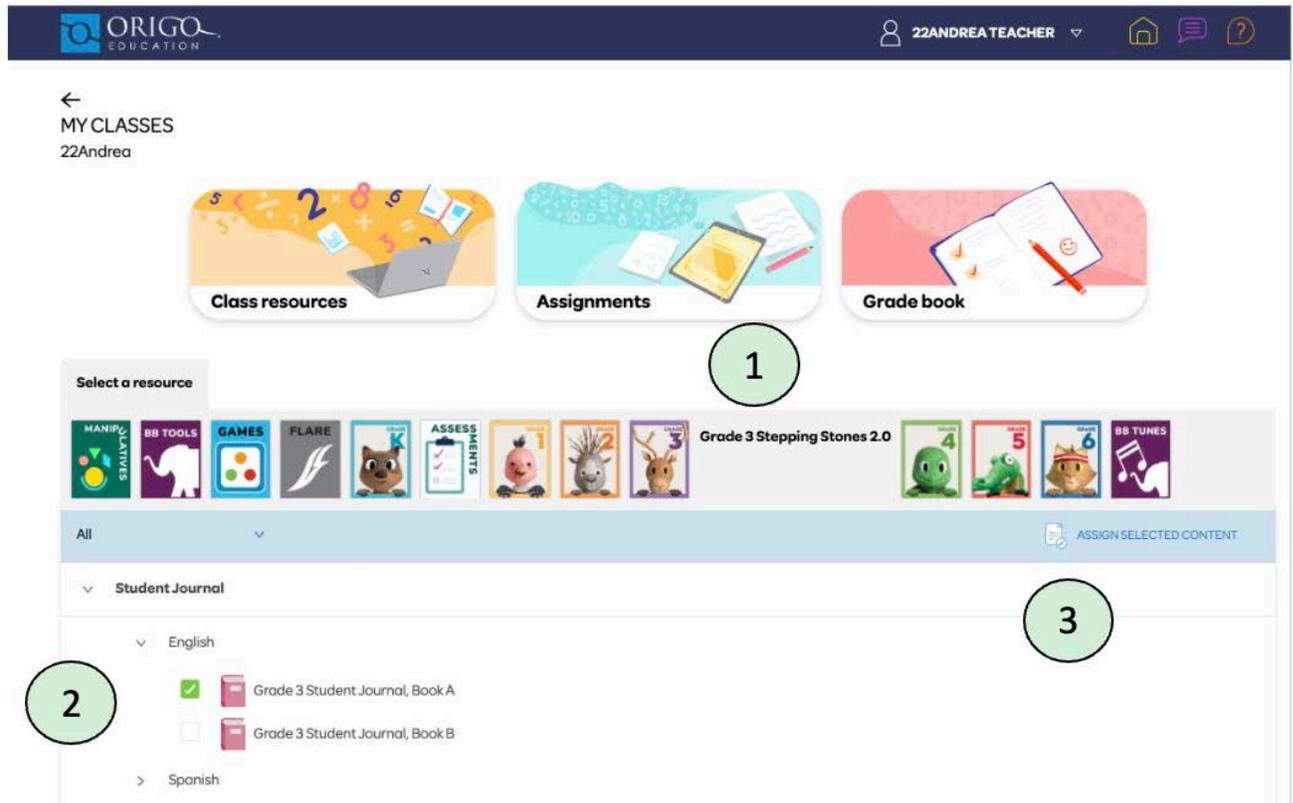

The resource you have added will now be present on the teacher dashboard.

Managing and assigning content

Select your class from the **My classes** panel.

Assigning content

- 1 Select the resource to assign.
- 2 Select the content from the dropdown menu.
- 3 Select the **Assign selected content** button.

Assigning content

The screenshot shows a 'Create assignment' form with the following elements and callouts:

- 1**: A dashed box around the 'Title' input field.
- 2**: A circle around the 'Instructions' text area.
- 3**: A circle around the 'Start date' and 'Due date' date pickers.
- 4**: A circle around the 'Select students' section, which includes a list of student names with checkboxes and 'SELECT ALL | DESELECT ALL' links.
- 5**: A circle around the 'SEND' button at the bottom right.

- 1** Provide a title for the assignment.
- 2** Add instructions. For example: "Complete Module 2, Lesson 3. Use the annotation tools to complete the Student Journal pages. Take a screenshot of your completed work and upload it here."
- 3** Provide a start date and due date.
- 4** Select the students who will receive this assignment.
- 5** Select the **Send** button.

Refer to the following example.
